

January 27th, 2015 Life Science (Day #101)

1. Turn in C9S1 Guided Reading WKSTS
2. Class Notes: C9S2 (3)
 - Three Types of Symmetry
3. In Class... Draw something showing all three types of symmetry for the pictiornary game Wednesday
4. Assignment
 - Read C9S3 'Sponges and Cnidarians' pages 303-311
 - Complete the Vocabulary (4)
 - Look at the Active Art (web code cep-2013)
 - Complete the Math Skills problem on page 305 as a part of your vocabulary heading

Nov 13-12:58 PM

C9S2 Notes

3 Types of Symmetry

1. Asymmetrical... there are no lines of symmetry to be seen...ex. sponges
2. Bilateral... object that has at least one line of symmetry to divides it into two equal parts... most mammals
3. Radial... a center point cast out many lines of symmetry... a bicycle wheel
